

## Filter rack installation

### Measuring the hole for the filter rack

Filter rack measurements can vary slightly. Always measure filter rack before marking the hole. Select the side that the filter rack will be installed on and mark and cut hole.

Note: For horizontal installations filter rack can be installed on the end (bottom) of the air handler.

B = 17-3/4" on 60-150  
B = 22-3/4" on 170-200

C = 12" on 60  
C = 14" on 110-220

### Mounting the filter rack on the air handler

The filter rack can be mounted so that the filter slides out the front (recommended) or the rear. Position filter rack in hole, and form tabs over cabinet. Note: Filter rack can be installed on the same side as the switch box.
